

BIZON clinch tools for wires and spring connections

The BIZON clinch pneumatic tool enables quick and precise connections of wires and springs.

A tool for professional producers of upholstered furniture, chairs, sofas, mattresses, cages, fences and other wire products.

BIZON ST clinch tools

- compressed air pressure: 5-6,5 bar
- Weight : 2kg
- Magazine capacity: 1 strip of clips (47 pieces)
- Roll version, collated clip (up to 9 600 pieces)

Model type: BIZON 6080

- Clip ST type: E72/18 and E78/18 (width: 17,5 mm)
- Used in stabilizing sinusoidal springs with wire

Model type: BIZON 6181

- Clip ST type: H88/23 (width: 22mm)
- Used in connecting sinusoidal springs

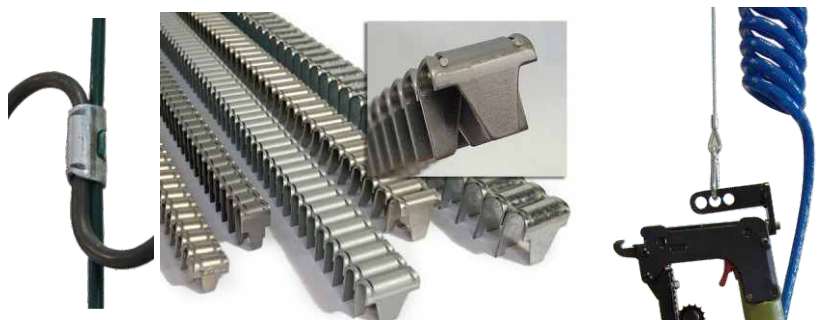

Model type: BIZON 1024

- Clip ST type: A110/18 (width: 11mm)
- Used in connecting framing tape with bonell springs

For individual orders, we can supply:

- BIZON tools for other clip sizes;
- Clips (strip and coil version) made from: cold rolled steel, galvanized steel, stainless steel and aluminium.

The metal clips are collated with plastic which not only allows easy loading, but unlike clips collated by tape, the packets are more durable and will not come undone during transport and manhandling at the work station. This guarantees that 100% of the clips will be used.

ST clips and tools „Roll” version

It uses collated metal clips that are fed into the tool's magazine from a continuous coil of clips mounted on a gantry.

Cold-rolled steel clinch clips.
Continuous roll, polycord collated
